

Hartford Area Business Economists (HABE)
presents

Peter Gioia

Vice President and Economist at:
**Connecticut Business & Industry Association
(CBIA)**

CBIA produces quarterly and annual business surveys to provide valuable insight into the perspective and expectations of Connecticut's business community.

Economist Peter Gioia will share CBIA's latest survey information on the business climate in Connecticut with a focus on the Manufacturing sector.

Manufacturing is a significant and vital sector of the Connecticut economy that has experienced a resurgence in recent years. This industry is poised for growth and has a considerable number of job openings due to a variety of factors including increases in advanced manufacturing and labor force demographic trends.

Join us on Thursday, February 15th to learn more about CBIA business surveys and how continued growth in manufacturing will impact the state.

Join us for Lunch at Carbone's on **Thursday, February 15th!**
