CONN-OSHA Confined Space Safety Workshop Set for September 21

WETHERSFIELD, September 7, 2016 – Participants attending a September 21 Confined Space Safety workshop sponsored by the Connecticut Department of Labor’s Division of Occupational Safety and Health (CONN-OSHA) will learn basic requirements and precautions necessary for working in tight spaces. The 9 a.m. to 12 p.m. event is offered at the Labor Department’s Central Office, 200 Folly Brook Boulevard, Wethersfield.

“This information is vitally important to anyone engaged in this type of job, or who has responsibility for individuals working in confined space environments,” explains Occupational Safety Training Specialist John Able. “Participants will learn and review the basic requirements and procedures as defined in General Industry Standard 29 CFR 1910.146, which covers this topic.

According to Able, the workshop objectives include:

- A review of criteria for confined spaces and permit-required confined spaces
- A description of the hazards that exist in permit-required confined spaces
- The steps involved in developing a permit-required space
- A review of all training requirements

While admission to the event is free, pre-registration is required. Please email John at john.able@ct.gov to register or with any questions.
