

## Turning Shared Work into Shared Success

### **TOTAL FENCE LLC**

Total Fence has been using the program for three years and the application process has become more streamlined, making it quicker and easier. I like that we can call in and speak directly to DOL employees if we have a question. Shared Work also cuts down on the unemployment insurance contribution we pay, keeps employees working, and keeps our staff

in touch with us so they can come back full-time when work increases again.

Total Fence has 20 skilled employees and turnover is low. We want to keep our employees and Shared Work helps us to do that. I recommend the program to other small companies that have seasonal slow periods.

**“ The thing I really like, and the folks in my office like, is that we’re able to call in and speak to dedicated people about the program and that’s really nice! ”**

**- Gina D’Errico, Owner, Total Fence**
